

# 5G, SMART METER TECHNOLOGY AND THE IMPACT ON OUR HEALTH

What is the impact on our health?

How will it affect our local area and property prices?

[www.5gawareness.com](http://www.5gawareness.com)

What can we do about it?

TALK WITH QUESTIONS & ANSWERS

The Steiner Academy, Much Dewchurch, Hereford HR2 8DL

Friday June 14<sup>th</sup> 7:00pm onwards (doors open at 6:30pm)

Adults £5 Children £3. Inquires: 07870 149745

The main purpose of this event is to inform ourselves about the roll-out of 5G (5<sup>th</sup> generation wireless network) and all its implications.

Question and Answer session after the main presentation.

The areas of the talk and the questions we will endeavour to cover will be -

- What exactly is 5G
- When is it coming to our local area
- What is the picture nationally and globally
- Why haven't we heard much about this in the mainstream media?
- What about parliamentary approval of 5G (Discussion or legislation?)
- What are the health implications?
- Will it affect the bird and insect populations?
- Is this inevitable?
- Can we protect ourselves?
- Why insurance companies won't cover for health problems created by Electromagnetic pollution and low level microwaves as well as fires which have been shown to be caused by smart meters.
